New York, March 29.—The correspondence between General Miles, Secretary Root and President Roosevelt has been transmitted to the House. It shows that General Miles applied for service in the Philippines February 17. He said in the application that the war is being conducted with marked severity, and requested that he be given assertly. that he be given general authority. He proposed taking ten Cuban and Porto Rican regiments, and explained the benefit that the United States Government would derive. , Secretary Root disapproved of this, saying General Miles sought to supersede General Chaffee because he held a subordinate commission. He also called attention to the denial by the Civil Government of

The Bombay Parsee community has lost its star. Mr Dossablioy Framjee Karaka, C.S.I., died on the 17th of March at his residence, aged 74. The deceased was born on the 8th May, 1828. In 1849, he passed the examination in the Elphinstone Institute, and became one of the Clair Scholars. He was the promoter of the Student's Literary and Scientific Society. The Dgnan Parsarak Mandlik, and several other Societies. After leaving the College in 1849, he served for some months as clerk in the Bombay Mint, after that the first Parsee Baronet, Sir Jamse jee Jeejeebhoy, took a fancy to him and appointed him assistant secretary to the Sir Jamsetjee Jeejcebhoy proprietor of the Jam-e-jumshed Newspaper from 1850. He served as Manager of The Bombay Times from 1855 to 1859. He was appointed as an assessor of the Income Tax from 1860 to 1864, Third Presidency | Magistrate in 1895, Delegate of the Parsec Chief Matrimonial Court. Fellow of the Bombay in 1872, the Chief Presidency | THE Steamship Magistrate and Revenue Judge in 1875, Chief Presidency Town Council in 1886. He resigned from the scat of the Chief Presidency Magistrate on the 31st December, 1887. After that he served as a Judicial Councillor to the Bhownuggar Durbar, and retired on Pension in 1894. IMPORTANT FACTS FOR BUSINESS MEN:

WORTH CONSIDERING.

Have you ever stopped to calculate the damage which Rats and Mice can do your stock?

In a large city like Hongkong the destruction done any mercantile stock by Rats and Mice in greater than the cost of insurance against fire and other losses.

A few boxes of NEWTON'S RAT CHEESE used about your premises will positively keep these pests away.

NEWTON'S RAT CHEESE is prepared ready for use, and all that is necessary to do, is sprinkle about where the rats run and they find it all right. They don't die in the house, but seek the drains or vaults for water, after eating.

THEWTONS HAT CHEEFE IS GUARANTEED.

SURE DEATH TO COCKROACHES, WATER-BUGS, WHITE ANTS, &c.

NEWTON'S ROACH POWDER

Will rid a house of such in 48 hours. It never fails to give perfect satisfaction, and is absolutely harmless to human beings.

Every house-keeper should not fail to try this ROACH POWDER.

To-day, at the tithin hour, considerable excitement was created by a five in Pottinger Street. The outbreak took place in a very narrow back alley off the upper portion of the street. Mr Mackie and Mr Macdonald attended with the Central Fire Brigade and two engines. Fresh water, scarce as it is, was used until a supply could be obtained from the Harbour, and in this way the fire was prevented from spreading and perhaps burning down a very congested area. The men worked under great difficulties, having to remove a large quantity of baskets and boxes, which were piled up in the alloy, before being able to take the hose to the seat of the fire. Ultimately, they got the mustery of the flames and the total damage, when operations ceased, would not be over \$1000, for which amount the property is insured.

Chinese Tariff Revision. The N.-C. Daily News of the 5th inst says :--At the conference on Thursday forenoon between the British and Chinese Commissioners (-hêng Kungpao was again absent) the following three topics were discussed:- (1) The opening of International commercial ports in the interior; (2) the importance of coining money having a uniform weight and system : (8) joint partnerships between foreigners and Chinese in commercial undertakings. It is stated that Comailssioner Lü Haishnan-who if will, perhaps, be remembered was a few years ago Customs Tootni of Chinking previous to going to Germany as Chinese Minister-showed a surprising and, under the circumstances, unexpected opposition to the opening of commercial ports in the interior, maintaining that they would be a fruitful source of trouble between foreigners and natives. - On the 7th inst., the same journal said:men of H.M.'s Navy and Army in the During the last three or four meetings between the British and Chinese Commissioners the negotiations on the Chinese side were conducted by Associate Commissioner Lü Hai-huan alone, owing to the inconvalescence of the Chief Commissioner, Sheng Kungpao. It is now stated in local mandarin circles that the crassness displayed by Commissioner Lü has been found to arrival here. I have ascertained that the progress of the already exceedingly weary negotiations, so that there-is a general desire that the Sheng Kungpao's health will enable him soon to resume his place at the meeting room of the Commissioners. Mr Thomson seconded, and the motion Mr Stewart Lockhart submitted the report of the Finance Committee (No. 3), and moved its adoption.

THE POST OFFICE SITE.

Mr Stewart Lockhart-Sir, with reference to the resolution that stands in my name in the orders of the day, it is orous and more effectual measures than in connection with this matter. The papers regarding the new Post Office have not only been laid on the table now, but were circulated amongst the members of Council and also furnished to the Press. so that those interested in the matter might have full opportunity of reading them and of knowing all the reasons which have induced the Government to take the step of purchasing the site in front of the offices of Messrs. Jardine, Matheson & Co. The want of a thoroughly up-to-date Post Office is a very real one, and is one that has been recognised by the community who pays a visit to the present Post Office, will at once realise that the want is a pressing one, and now being taken with are steps which will facilitate this matter considerably, because it will be possible now to take immediate steps with a view to acquiring the new Post Office, whereas, under all previous arrangements, unavoid-

has been estimated that the new Law Courts would not be ready at least until H. R. H. the Duke of Connaught has 1905, so that it would not be possible to make a commencement with the new Post Office until the new Law Courts and been crected and the Supreme Court removed feel sure the action of the Government will be approved by this Council. As to the site itself, I do not think it requires any remarks of mine to commend it; I think every body will recognise that it is an ideal site for a rost Office. With those few remarks I beg to move that this Council approve of the expenditure of the sum of \$5 8,280 for the purchase of Marine Lots 99 and 100.

Mr Thomson seconded.

Mr Whitehead - Sir, before your Excellency proceeds with the adoption of this resolution, I desire to say a few words. The site of the new Post Office has now been under discussion for a very long period of years. The question was referred to committee appointed by H.E. committee unanimously recommended that the new Post Office should be greeted on the marine frontage. The then Govern question of the site, but I am rejoiced now to find that they have seen the error of their ways and have come to a wise decision in the end namely, to put the new Post Office on the marine frontage. this paper which has been laid on the table to-day, initialed by 'M. J. D.,' in the first paragraph thereof there is a reference to the resolution passed by the Legislative Council on 28th February, 1898. The memorandum states that 'it was unanimously resolved;' that, sir, is not the case. The elected representatives of the community on this Council both voted against the investment of the fund (left in his will ber and myself-and we all along and throughout have been of opinion that the new Post Office should be built on the

> case, and I trust that the construction of the building will not be further delayed. Mr Stewart Lockhart-Sir, I think it is only right that I should explain that, so far from this Government having thwaited the views of the Unofficial Members of the member opposite, I may say that it was discussed by this Council and decided by a majority, including the Unofficial Members. that it would be advisable to have the new Post Office erected on the sire of the present Supreme Court. I think it only right | the Christian Sabbath is the first day of the that there should be all understanding on this matter, because, from what the honmember opposite has said, it might bo thought that the Government had ridden rough shed, over the views of the Unofficial A embers. I am glad to learn that the Hon, member thinks the Government has come to a satisfactory decision in this matter. With reference to the initials 'M.J.D.,' these are the initials of Mr M.J. Drayson, the chief clerk recently appointed

to the Colonial Secretary's office. Mr Whitehead-Sir, I would-Mr Stewart Lockhart-The hon. ber is not in order. Mr Whitehead- Sir, I would point ou The motion was then put, and was un-

animously carried. THE NEW BUILDINGS ORDINANCE. His Excellency-Gentlemen, that is all the business to-day, but I should like that you will allow me to detain you with a very few words respecting the Buildings Ordinance, 1902, brought forward about a month ago. This Ordinance was brought time for the reason that the then Attorney General, now Chief Justice, had given ar enormous amount of time and labour to the preparation of the bill, and it was brought forward in order that any matters requiring explanation might be explained by him while he was still in office, as he was better able to explain them than anybody else. However after the bill was brought forward, it reached me that a number of interests were largely affected by it, and I thought it was only right and reasonable that they should have time to

the bill for a month. (Applause.) T 6 month had practically clapsed, and the bill was ready to be brought forward once more, when it reached me again that there were a number of people who fancied that the bill as it was laid before you was not final altogether, that it would have to be altered, and that, if passed in its present form, shortly afterwards some other measure would have to be passed bringing forward greater reforms. I felt that this was most objectionable, for many reasons, and I therefore summoned the two high experts fortunately present in the Colony, Professor Sunpson and Mr Chadwick, who had Works). taken a great part in the drafting of the bill, Hon. R. MURBAY RUBSEY (Harbour and brought them before the Executive Council, and I asked them the point-blank question whether the bill as laid before you embraced everything they wished to call attention to, and the answer came that it did not embrace all the things they wanted to bring before us; in fact, that in i's present form it was not final. The Executive Council therefore unanimously agreed to postpone action until the measures suggested by these two high experts should be brought forward. I make these few remarks to you because the frequent postponement of a bill on the part of the Gavernment might be thought to be a sign of weakness. It has not been so in this case. (Applause.) We are all agreed, I think, that a measure of reform is required, but I was very an-xious that everybody whose interests are affected should not only have every possible reasonable opportunity to look into the matter, but also that the bill as laid before you should have that reasonable prospect of finality that such a bill should be expected to have, and I can promise you that when it is laid before you the bill will have that finality, and we can then discuss the measure and pass it on its merits. (Applause).

MR MARSH'S FAREWELL CONCERT.

The Council then adjourned sinc die.

Unfortunately, the breakdown of the weather had a bad effect on the attendance at Mr Alec Marsh's farewell concert, held last night in the City Hall. Many Peakitesand Kowloonites, who had already purchased tickets, were provented only by the inclement atmospherical conditions from making use of them. Those who braved the elements, however, were well repaid for their pains, as Mr Marsh and the telented ladies and gentlemen who assisted him acquitted themselves in an admirable manner, and what the audience lacked in number was abundantly compensated for by view to supply that pressing want its enthusiasm. Messrs Grindale and Ward opened the concert with a pianoforte duet; there is no need to comment on their skilful performance. Mr Marsh has probably never been heard in Hongkong to better advantage, and his spirited rendering of Blumenthal's 'Life' earned a rapturous demand for an encore, when he sang, 'My Lovo is Come.' Mrs Mudie was heartily received, her beautiful voice just suiting the preity solos she had elected to sing, namely Goring Thomas' · A Summer Night' and in the second part 'A Summer Shower,' Mrs Lowson, who by the way is leaving for Scotland to-morrow and is not likely to be heard in Hongkong for some time to come, gave an artistic rendering of Blumenthal's Sunshine and Rain,' and, as an encore, 'The Fairy's Lullaby.' Lieutenant Dale, R.W.F., in his violin solos, showed a mastery of the instrument and a touch and finish which is rarely attained by the armiteur. He was encored on both occasions. Mr Marsh's appearances in the second part were on a par with his efforts earlier in the evening and delighted his hearers. 'The Toreador Song,' a favourite his, was rendered with great spirit. He sang 'The Owl' by request, and created much merrimont. The beautiful duet 'Oh, that we two were Maying' (A. M. Smith) received a highly effective interpretation from Mrs Mudie and Mr Marsh, and won heatty plaudits. Mr C. H. P. Hay was very successful in Lahr's Love's Proving,' and Mr G. P. Lammert also wen encomiums for his rendering, by request, of Liza Lehmann's 'Ah, Moon of my Delight.' Messre Ward and Grimble

YARROW'S SHALLOW DRAFT STEAMERS.

TERNWHEEL STEAMERS have been found by experience to be the best type of vessel for shallow river navigation under many conditions of working, and of these Messrs. Yannow have built a very large number of successful examples for all parts of the world. Vessels on this system are constructed when required, to draw as little as 10 inches.

The construction of shallow river vessels propelled on various systems has been made the speciality of Mesors. For particulars apply to
